

MEETING, INCENTIVE, CONGRESSES, EVENTS

The new convention center, has a room overlooking the sea, five hundred seats and ten other meeting rooms that are versatile, equipped and comfortable with spacious exhibition areas. It's the ideal place to organize business meetings, presentations or conferences.

At the heart of Foyer of the Convention Center there is a "Cork Garden" where a lamp is the centrepiece that as a "moon" lights up the surrounding space. Another characteristic element of this area are several rooms whose walls are made of glazed bricks that give an effect of "gold and silver bullions".
